

## Merenda Bench / Table

The Merenda Bench / Table is manufactured from steel sheet. The tabletop and seat are floating planes connected and supported by straight steel legs.

The Merenda can accommodate up to four people. Its single laser cut sheet is shaped which is purposefully reinforced giving the Merenda its unique character.

Timber slats are available for the seating if desired. The bench is modular and ideal for picnic areas or public parks.

### Specification

Materials:  
 Frame - corten steel  
 Seat - timber
