

Anastasio Bench

Anastasio is a monolithic Seat with inclined sides and optional backrests. Made out of PDM (reconstituted marblestone). The bench is supplied with reinforced bushes for lifting and simple positioning on the ground.

Anastasio can also be supplied with a backrest made of laser-cut steel sheet with geometric patterns, available in linear or inclined versions, depending on the side of its position on the monolith, or in wood with steel tube support brackets.

The significant weight of the bench means it does not need fixing and is freestanding.

Can be combined with the Maketite and Realgar seats that can create simple yet stunning seating arrangements, which can also act as a retaining system to raised soft landscaping schemes.

Materials

PDM (Reconstituted Stones)

Backrest Accessories - Powder coated steel; hardwood

Dimensions

L: 2000mm
D: 556/675/771mm
Seat H: 450mm
Backrest H: 974mm

Weight: 1500kg
