

Box Litter Bin

The Box Litter Bin is manufactured from a robust 6mm thick sheet metal structure and two doors of which one is fixed and one which opens. The doors can be made with a vertical 57x18mm section to hold timber slats which fit onto a steel structure. The litter bin is equipped with a zinc steel ring to hold plastic waste sacks. The litter bin is available with an ashtray upon request. The litter bin is available in three sizes: 55L for wall fixing, 110L and 150L for ground fixing with M8 bolts (not included). All metal parts are hot dip galvanised (in accordance with the relevant UNI standards) and polyester powder coated. All fixings are stainless steel.

The Box litter is available with Four variations of the door;

Box Wood litter bin has timber slats that are vertically applied onto a structure made of steel.

Box Line litter bin features vertical steel rods to create a robust and resistant face to the litter bin.

Box Iron litter bin has sheet steel with laser-cut holes.

Box Solid features a sheet of steel that comes in a variety of vibrant powder coated colours and Decals.
