

Break Time I Seat

The Break Time I Seat is part of a collection of street furniture elements ideal for a variety of external environments.

The seats are available in different models.

SIL is a bench with backrest composed of a seat in steel rods and two supports in steel tube.

The SI7S, SI7, SI4S, SI4 models are single seats, with different heights, with or without backrest, composed of a vertical support in steel tube and a seat in rods.

The SI7S, SI7 models are equipped fixed footrest in stainless steel. The SI7S model is rotating with locking system, with backrest and armrests.
