

Bull Seat

The Bull Seat is made up of two 7mm thick solid steel supports, galvanised and polyester powder coated, shaped according to the design and completed with timber armrests which fix with no visible screws. The seat is made from 3 milled timber slats, measuring 150 x 55 x 2000mm, in double-coated timber. The first coat is a base insulating spray and the second finishing coat is a water-based varnish for outdoor use. The backrest is made from two 7mm thick steel supports, positioned away from the base structure by 4 special stainless steel parts and a 55x150x2000mm timber beam.
