

Carousel Picnic Table

A Landscape Forms original, the Carousel defines personal space in public settings, marries informality and order, function and flair. Carousel varies its style to suit the setting. Its round table is conducive to conversation and its individual seats are comfortable to sit in, get into and out of, and easy to access. Carousel is a smart solution for outdoor spaces and large atria. Carousel is strong and durable, easy to plan and assemble picnic table which is resistant to all kinds of weather. It can be configured to accommodate a wheelchair, holds an umbrella with no added structure, and its seats cant walk away so they dont have to be replaced. While Carousels structure maintains order, its table-top and seat options offer welcome visual variety. An array of Pangard II powder coated colours and a choice of umbrella profiles create Carousel settings that are as sprightly as their name sake or as subdued as a business suit.

Specification:

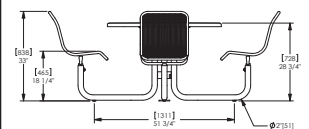

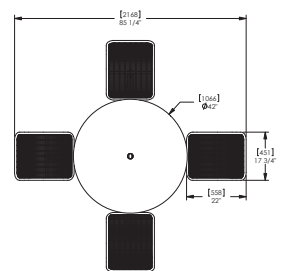

Materials:
Steel

Finishes:
Pangard II powder coated

Fixings:
Freestanding. Surface mounted.

Dimensions

H: 728mm
Dia: 1066mm
