

Cestis Litter Bin

Litter bin made up of an entirely cast aluminium pole, a galvanised steel container with steel bag holder and a cast aluminium cover which opens with a three-winged, stainless steel hinge.

The litter bin is provided with slam lock as standard and can be provided, on request, with a semicircular ashtray.

Ground fixing is either through subsurface mounting the internal post, fixing to the vertical structure with stainless steel anti-theft screws, or surface mounted with hidden bolts through a base plate.

Specification:
