

Flo Planter

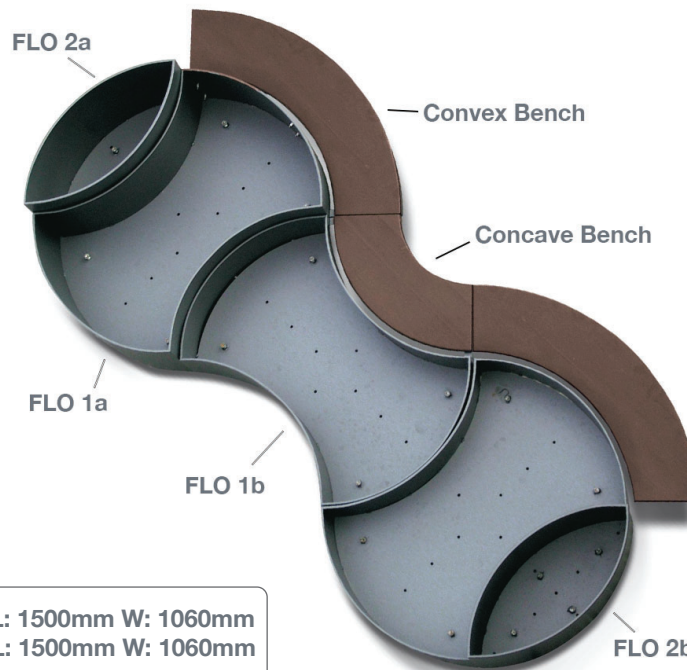

The Flo Planter is available in four different formats, two concave and convex forms both available with two height options. These elements can be placed against each other both in linear or radial layouts, to make infinite combinations.

Made entirely from 2.5mm thick hot galvanised and polyester powder coated steel sheet in RAL 7016. The lower edge is equipped with a perimeter frame and 30x5mm flat steel profile stiffening crosses, and with special fixings to adjust according to the surface slope. Furthermore, thanks to the special styling, 350mm wide concave or convex, timber seats can be fixed to the 1500 x 1060mm components.

Specification:

Materials:

Body - powder coated steel
Seat - timber

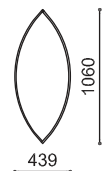

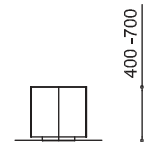

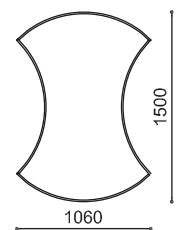

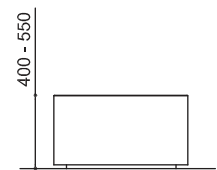

FLO 1a - H: 550mm L: 1500mm W: 1060mm
FLO 1b - H: 400mm L: 1500mm W: 1060mm

FLO 2a - H: 700mm L: 1060mm W: 439mm
FLO 2b - H: 400mm L: 1060mm W: 439mm

Dimensions

H: 400 - 700mm
W: 439 - 1060mm
L: 1060 - 1500mm
