

Guardia Cycle Stand

The Guardia Cycle Stand is made from a single piece of shaped corten steel plate with a brushed and electropolished stainless steel movable rod to attach a lock to the bicycle frame. The Guardia can be spaced at 700mm side by side, or spaced at 350mm opposite each other. The corten steel is sandblasted and treated with a unique oxidation cycle. The anti-theft fixings are stainless steel. Also available in Mild Steel Powder coated. Ground fixing is through two anchors installed in the ground, or directly with steel ground anchors (not included).

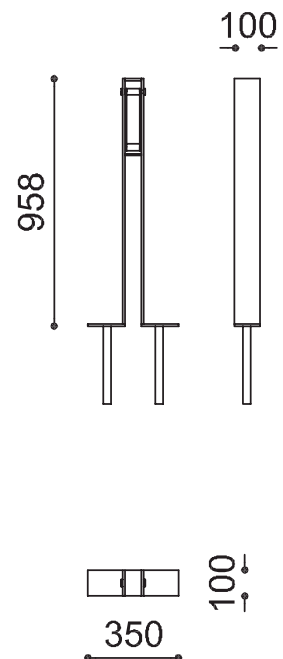

Specification:
