

Harris Isola Trapezio

The latest addition to the Harris range - this trapezoidal modular seat features an asymmetrical shape that can be installed individually or in composition to create large and unique seating arrangements.

The seat is composed of a powder-coated / or corten steel frame with WPC (Wood Polymer Composite) seat.

The frame has been pre-drilled for ground anchors.

Dimensions:

H: 420mm
W: 2970mm
D: 1520mm
