

Loop Line

LOOP Line is made to function independently as well as in combination with LOOP Arc to form a triangle, a curving snake or any number of other configurations. Combined with LOOP Corner it forms rectangles to use for ball courts, elevated beds or sand boxes, where seating is the added bonus.

The Loop Line has a textured/granulated surface due to abrasive blasting of the mould. This process enhances the friction and makes the surface comfortable and safe to use.

The material is suitable for recycling.

Specification:

Materials:

Rotation moulded polyethylene

Fixing:

Subsurface or surface mounted.

Please note that the shape of Loop Line does not permit it to stand alone unfastened. It must be attached to the ground or to a LOOP Arc or LOOP Corner at either end.

Dimensions

L: 2000mm

W: 400mm

H: 400mm
