

Lounge Planter

The Lounge Planter is a truncated pyramid shape which is available in various sizes. The planter is manufactured from thick corten steel sheet, sandblasted and treated with a unique oxidisation cycle, with a 5 mm thick brushed stainless steel square lower base support with fixings to regulate its gradient. On request, each planter can be accessorised with two or four 15/10 mm thick stainless steel plates which can be used to attach name-plates or labels. Lounge is also available in mild steel powder coated.

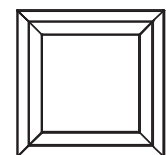

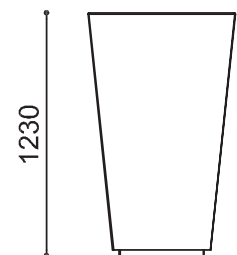

Specification:
