

Lua Chair

The Lua Chair is manufactured entirely from thick sheet steel. The shape is rendered in steel while the motif pattern accentuates the aesthetics of the design. The pattern is derived from the surrounding landscape shapes and floral designs which are then laser cut from the sheet metal. Backrest and one armrest.

The Lua Chair can be combined with the Dea Seat, Diva Lounger, Ela Chair and Stella Bench as well as the Obra Tree Grille to create a cohesive and elegant outdoor social space.

Materials

powder coated steel; corten steel

Dimensions

H: 710mm
W: 530mm
D: 530mm
