

Makatite Bench

Makatite is a monolithic seat made out of PDM (reconstituted stone) equipped with a cast in reconstituted stone backrest. The bench is supplied with reinforced bushes for lifting and simple positioning on the ground.

The significant weight of the bench means it does not need fixing and is freestanding.

Can be combined with the Anastasio and Realgar seats that can create simple yet stunning seating arrangements, which can also act as a retaining system to raised soft landscaping schemes.

Materials

PDM (Reconstituted Stones)

Dimensions

L: 2000mm
D: 770mm
Seat H: 450mm
Backrest H: 974mm

Weight: 1500kg
