

Norse

Collection of modular benches, composed of a monolithic structure, made of Corten steel, equipped with two or three supports. Two models are available: one linear, the other “L” shaped. Two models are available: one with a plane covered by a seat in WPC (Wood Polymer Composite), the other with two single seats in WPC. The “L” shaped bench seats can be on the outside or on the inside.

Materials

Corten Steel, WPC Plus (Wood Polymer Composite)

Dimensions:

Standard straight bench

L: 2300mm
D: 600mm
H: 420mm
Weight 98kg

(Technical Drawings available on request)
