

Pitocca Planter

The Pitocca Planter is in a classic truncated cone shape, available in two heights, and made entirely out of 20/10mm thick steel sheet, coated with zinc primer and polyester powder. It is equipped, at the bottom, with a circular base in 5mm thick zinc steel with fixings to regulate its slant, which is operated from inside. Upon request, each planter can be accessorised with two 1mm thick stainless steel plates which can be used to attach name-plates or labels. Also Available in Grade 304 stainless steel or treated corten steel.
