

Realgar Bench

Realgar is a monolithic seat made from PDM (Reconstituted Stones), equipped with a cast in reconstituted stone footplate.

The significant weight of the bench means it does not need fixing and is freestanding.

Can be combined with the Anastasio and Maketite seats that can create simple yet stunning seating arrangements, which can also act as a retaining system to raised soft landscaping schemes.

Materials

PDM (Reconstituted Stones)

Dimensions

L: 2000mm
D: 1097mm
H: 450mm

Weight: 1500kg
