

Stella Bench

The Stella Bench is manufactured entirely from thick sheet steel. The shape is rendered in steel while the motif pattern accentuates the aesthetics of the design. The pattern is derived from the surrounding landscape shapes and floral designs which are then laser cut from the sheet metal. Armrests

The Stella Bench can be combined with the Lua Chair, Dea Seat, Diva Lounger and Ela Chair as well as the Obra Tree Grille to create a cohesive and elegant outdoor social space.

Materials

powder coated steel; corten steel

Dimensions

H: 710mm
W: 1060mm
D: 530mm
