

Traverse Chair

A Landscape Forms original the Traverse chair was designed with simple lines for both indoors and out. It lends a touch of style and to any space and is heavy enough to stay put as well as being durable to thrive in active environments. Featuring strong build quality and aesthetics it is clear to see why this chair is a popular choice for both indoors and out. Whether it's a corporate facility, a university or a café, the graceful curves of the Traverse chair lend a touch of style to any space. This chair is comfortable and built to last, making it excellent value.
