

URBAN FURNITURE COLLECTION

ABOUT ARTFORM URBAN

Artform Urban Furniture is at the cutting edge of integrated landscape design and our mission is to supply the world's most aspirational and design-led street furniture products, bringing to life the visions of Landscape Architects, Designers & Specifiers.

Using our exclusive UK partnerships with leading manufacturers and design studios on the global street furniture stage, we are able to provide world class, exclusive collections of integrated public realm furniture to enhance any external works scheme.

The resulting breadth and depth of architectural products offered by Artform Urban Furniture represent an unparalleled quality and diversity within the UK street furniture industry.

We also provide a full and professional consultative service on tailored and bespoke street furniture design, either adapting an existing product in our range or developing street furniture concepts from the start, to fulfil your aspirations.

PROJECTS

Artform have worked with a range of architectural and landscaping professionals in many areas and regions. Below are some of the key sectors that we strive to supply the most suitable street furniture to.

SECTORS

SOCIAL

A connection to others can ignite a happier and more fulfilling lifestyle, outdoor public and residential spaces can make changes to improve people's quality of life.

Artform can provide their knowledge and experience to create environments that enhance sociability.

External spaces can invoke many emotional and cognitive responses from users if planned.

EDUCATION

Education facilities are hives of activity that require careful planning, to ensure maximum space usage.

Higher education institutions aim to provide an enriched campus experience to attract and retain the best students and faculty.

By developing external spaces, universities and colleges can expand living, working and learning experiences on campus.

RETAIL

Shopping centres, retail parks, outlet villages and high streets are all energetic hubs that are full of people bustling to the next shop or stall.

Furniture impacts the way that spaces are used by visitors, encouraging them to browse for longer, and making the experience more relaxing, thus inspiring them to return.

URBAN

Built-up areas and city centres have elements from all of the other sectors.

Public spaces naturally encounter high levels of use and can encourage social gathering, as well as allowing people to pause and take in the atmosphere.

Street furniture can help to create and balance communities.

HEALTH

With an aging population and increasing demands on the National Health Service, a focus on patient recovery is vital.

Utilising outdoor spaces to create quiet, stress-free zones that have an excess of greenery and wildlife is essential to providing a top level of healthcare.

Simple remedies such as access to fresh air and taking in sunlight are vital to ongoing health.

GREEN SPACES

Public parks and green spaces are used by a diverse range of visitors and require a high level of maintenance and management.

Making full use of the space available is crucial to attracting more people and building a community.

Heritage parks, fashioned by renowned designers must maintain their original concept whilst stepping into the future with smart technology.

BESPOKE SOLUTIONS

ABOUT OUR BESPOKE SERVICE

Artform Urban Furniture not only has access to the world leading brands in street furniture design, but we also offer a full in house design service through our Artform Bespoke Solutions team. With full SolidWorks, Visualize Pro and AutoCAD design software, a UK based fabrication plant and a complete assembly unit located at our UK head office in Cheshire, our knowledgeable and experienced team pride itself on the ability to create any bespoke street furniture and public realm elements, to your exact requirements and specification.

It may be a simple adaptation to an existing product range or a complete one off scheme taken from an initial concept idea. Using our vast industry experience and years of working with architects and designers throughout the UK, we engage at all levels and provide a fully consultative and collaborative approach to the outdoor environment with complete consideration to aesthetics, performance and importantly budget.

We provide a wide range of material options including steel, stainless steel, aluminium, timber, granite and UHPC (Ultra High Performance Concrete), offered in a variety of finishes.

Lysimeters at Newcastle University - Artform designed, manufactured and installed 10 enormous lysimeters that are to be used by researchers at the Urban Science Department.
A lysimeter is a device which can be used to measure the amount of actual evapotranspiration which is released by plants.

DESIGN

From our initial consultation meetings and discussions, we take your conceptual ideas and turn them into visual renders, giving an indication of aesthetics, geometry, material finishes and sample specification, plus of course a budgeted cost. Our engineers and designers have a wealth of experience in street furniture manufacture, be it a simple litter bin, through to a more complex bench, shelter or planter.

BUILD

With two modern fabrication plants and a flexible and skilled workforce, we can turn your approved street furniture designs into reality. Our extensive supply chain provides a full range of finishing services; from galvanising, powder coating and anodising, plus a wide and diverse choice of hardwood timbers.

All products are assembled, finished and inspected at our Cheshire based assembly plant prior to dispatch and delivery to site. If required we can provide a fully experienced and professional installation service.

INSTALL

MATERIALS

ABOUT OUR MATERIALS

Artform Urban Furniture provide exceptional material options to ensure the products on the street are the absolute finest the world has to offer.

Material options include: Corten Steel, Ultra High Performance Concrete, Aluminium, Stainless Steel & hardwoods. Sustainable materials are also considered with the use of recycled plastic and responsibly sourced and certified timber. All metal elements used within our product range are recyclable.

All materials have a range of finishes to enhance the quality and the lifespan of the products.

Cutting edge products are combined with external lighting systems or ground breaking and innovative smart technology to provide an accomplished blend of uses.

SMART TECH

THE GO-OUTDOOR TABLE - with integrated power, glare reduction lighting, display mounting and solar power.

THE PLATEAU SUN HUB - interactive picnic table, built-in technology, entirely solar powered.

SMART SHELTERS

UPFIT is an adaptive structure with a modern style and endless flexibility to transform spaces into small community hangouts that invite people to create experiences.

CONNECT SHELTER 2.0 - interspersed LED lighting powered by grid or solar panels, tempered glass, aluminium frame.

PARTNERS

Artform Urban Furniture are proud to be the UK partners to some of the world's leading designers and manufacturers of design led, architectural street furniture.

We can help bring your visions to life. Take a look through our exclusive ranges, and you will find products that you won't find anywhere else in the UK; from leading manufacturers and design studios, including Landscape Forms (USA), Metalco (Italy) and out-sider (Denmark)

landscapeforms®

Landscape Forms is the USA's leading manufacturer of high-quality, design-led street furniture.

With an annual turnover of 120 million dollars, over 300 employees and an outstanding reputation for high-quality materials and service.

metalco

Metalco has a comprehensive range of high-quality street furniture that is available in the UK exclusively from Artform.

Attention to detail and care for the environment makes Metalco a perfect choice for architectural street furniture.

out-sider

out-sider, based in Copenhagen, offers unique and colourful furniture with a clear design philosophy to create multifunctional products for all ages.

An overall progressive approach to designing urban furnishings, and establishing new forms and methods.

PART OF THE BAILEY STREET FURNITURE GROUP

Artform Urban Furniture is part of the **Bailey Street Furniture Group** a privately owned collection of individual companies serving the construction sector, providing a wide range of street furniture, playground elements and associated services to the public realm, commercial and educational schemes throughout the UK.
