

- **The material polyethylene (PE) withstands almost all detergents.**
- **High pressure cleaners can be used with advantage to clean PE products.**

**1:**  
*Before cleaning (LOOP from a Copenhagen park, 7 years old when these photos were taken).*

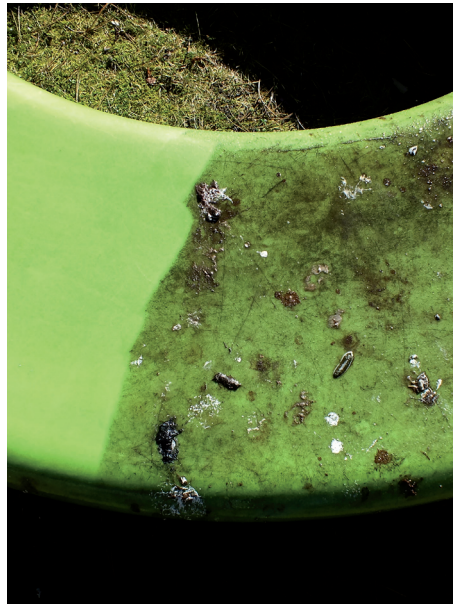

**2:**  
*Spray with base cleaner (pre-paint cleaning agent). Let it soak for about five minutes.*

**3:**  
*Start high pressure cleaning with hot water.*

**4:**  
*Even graffiti can be removed with this method.*

**5:**  
*Halfway results!*

**6:**  
*End result. After cleaning, use a vinyl polish (same as used for car interiors) to add some shine to the product.*
