

Bola Cycle Stand

The Bola's understated design doesn't conflict with other site elements. The cycle stands are manufactured from 38mm diameter 3mm wall stainless steel tubing, with a satin electropolish finish. Bola is also available in powdercoated steel. The cycle stand has the potential to secure two bicycles parked parallel to the stand. The bicycles can be headed in opposite directions, or in the same direction. The rack provides two-point contact to prevent the bicycle from tipping over. A standard D-shaped bike lock can secure both a wheel and the frame. The stand must be embedded.

Specification:

Materials:

Powder coated steel or stainless steel.

Dimensions

Height: 816mm
Width: 715mm
Depth: 38mm
