

Dahlia Planter

The Dahlia Planter features a simple cubic form available in four sizes. The planter is made entirely from thick steel sheet, galvanised and polyester powder coated. The Dahlia planter has a square base support made out of 6mm thick galvanised steel with screws provided to adjust the slope (which is adjusted from the inside). Upon request each planter can be supplied with two 1mm thick stainless steel plates to attach plaques or labels. Also available in grade 304 Stainless Steel or treated corten steel.

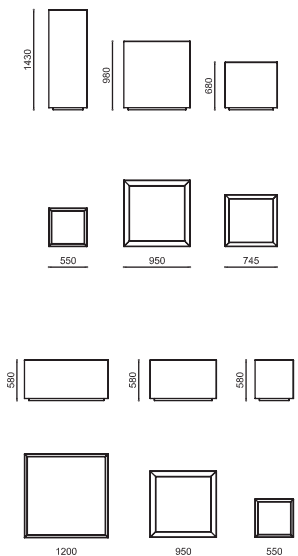

Specification:
