

FGP Litter Bin

The FGP Litter Bin is a handsome element that complements other pieces in the FGP collection. Its cast aluminium rim and rotational-molded base are connected with vertical timber slats in between. The cast aluminium top is hinged to swing up for easy servicing. The timber slats are available in the same species as the bench. Cast aluminium parts have a powdercoated finish.

Materials

Rim - cast aluminium
 Body - timber
 Base - rotational-moulded plastic
