

Flora Tree Grille

The Flora Tree Grille is made from 5mm thick laser cut steel sheet that is then decorated with leaf elements. The tree grille is made up of two halves, reinforced by perimeter steel plate, and prepared for fixing together with screws. Also supplied with a suitable L-shaped counter-frame in steel plate, with brackets for concreting-in. The tree grille is available in five sizes. All hot dip galvanised and polyester powder coated.

Specification:
