

Torres Path Light

Torres lights are a beautiful complement to urban landscapes, plus traditional and contemporary architecture, improving, but not altering, the composition. The 920mm tall light with advanced LED array and optic design provides directed warm white light and superior visibility, to extend the safe use of outdoor spaces. Torres lights are cast manufactured from cast aluminium and offered in a full colour palette finished with Landscape Forms proprietary Pangard II HAPS, VOC, and lead-free polyester powdercoat.

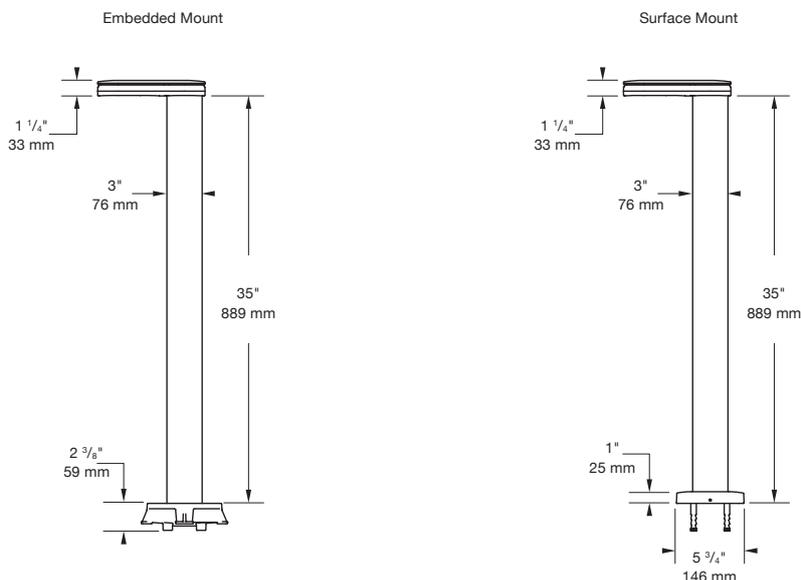

Specification:

Materials:

Post - cast aluminium

Fixing:

Surface mount or embedded options.

Dimensions

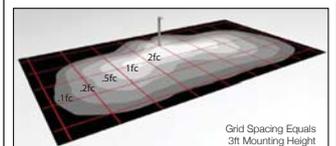

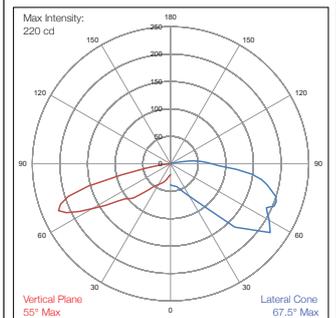

H: 920mm
W: 254mm
D: 203mm

Light Output
(Lumens): 197

Watts: 4.1

Lumens Per Watt
(Efficacy): 48

Colour Accuracy: 83
