

Pit Stop Cycle Stand

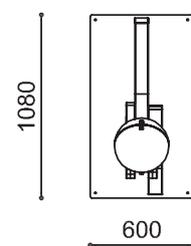

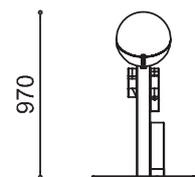

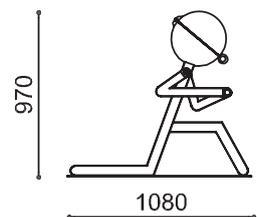

The Pit Stop Cycle Stand is an idea which offers a great custodian, not only for your bike, but which also uses its head and takes care of your helmet or your shopping bag. It can be placed in a historic city square, beside a shopping street, or especially in front of a school, a library or in a soothing green space. With its bright colours and basic lines and simple but strong physique, the Pit Stop replaces other cold and expressionless racks, which nonetheless invade our city squares and gardens.

Specification:

Materials:
Powder Coated Steel.

Dimensions

H: 970mm
W: 600mm
D: 1080mm

(Technical Drawings for variants available on request)
