

Nuvola Seat

The Nuvola Seat is made up of two solid C-shaped section corten steel supports, completed with spacing supports in corten steel. The seat and backrest are made up of five sections of timber slats, fixed to the structure with twenty stainless steel round-headed screws. The outstanding characteristic of the bench is the suppleness of the seat and backrest, given by the materials and special open shape. Nuvola is available in double-coated timber: the first coat is a base insulating spray and the second finishing coat is a water-based varnish for outdoor use.

Specification

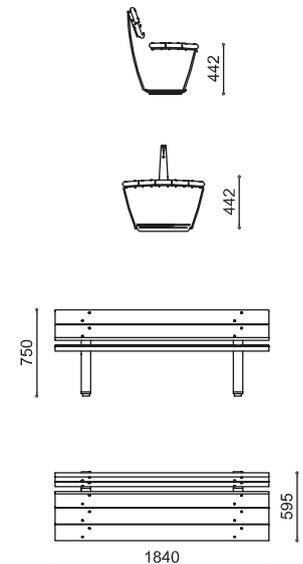

Materials

Frame - corten; powder coated steel

Seat - timber

Dimensions

H: 442 / 750mm
W: 1840 / 3000mm
D: 595mm
