

## Riva Seat

The Riva Seat is available as a one, three or six seat versions. It is made up of two or three aluminium end supports with armrests which are polyester powder coated. The seat and backrest are constructed from three sections of slats in double-coated timber. The first coat is a base insulating spray and the second finishing coat is a water-based varnish for outdoor use. The slats are pre-assembled to robust shaped steel elements and then fixed to the end supports. The key feature of this seat is that all of the fixings are hidden.

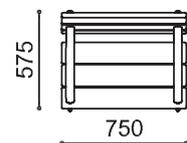

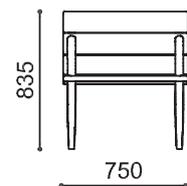

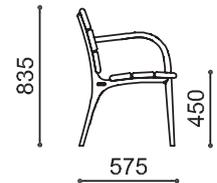

### Specification

#### Materials

Seat - timber  
Legs - aluminium

### Dimensions

H: 835mm  
W: 750/1750/3000mm  
D: 575mm
