

GO Outdoor Table

The GO OutdoorTable brings a new dimension to the communal table with integrated power that enables people to stay connected outdoors, in the places where they live, learn, work, care, play and travel. Available in dining and standing heights, GO supports formal and informal activities, individuals and groups, in a variety of postures: sitting, standing or leaning.

GO has an appealing sleek and simple profile, a smooth, flat top that provides an ideal surface for writing, and rounded edges that offer a comfortable position for hands and arms when using laptops and tablets. Its frame is hollow similar an aircraft wing, channeling technology out of sight.

With the canopy, GO provides a sense of shelter, glare reduction for better visibility on mobile devices, and capability for lighting, display mounting and solar power.
