

# Grandiflorie

The Grandiflorie Bench and Planter collection allows the creation of planters and borders with three different heights, consisting of square, rectangular or circular shapes. Manufactured from a Corten or powder steel structure with integrated linear timber seating. Thanks to its modular elements, it allows the creation of a wide range of combinations. All variations are pre-drilled for ground anchors or below ground installation.

## Dimensions

H: 413mm  
 W: 1100 / 1096 / 1832 / 2200mm  
 D: 493 / 638 / 1096mm

(AutoCAD Technical Drawings for variants available)
