

Loop Light

Loop light can be used indoors and out, offering sociable seating for 4-6 people. With its circular form and inviting illuminated colours, Loop Light stands out in any environment including urban spaces, parks, golf resorts, schools, amusement parks, it reminds us to take a minute and rest.

Please note the Loop light only operates in dark areas and the optimal light output is achieved with max 20 lux light from the surroundings.

The Loop Light has a textured/granulated surface due to abrasive blasting of the mould. This process enhances the friction and makes the surface comfortable and safe to use.

The material is suitable for recycling.
